

## **Mr. Asif Peer**

Asif Peer joined Systems Limited in 1995 as a software programmer. He exhibited strong leadership qualities early in his career and quickly rose through the ranks. Mr. Peer spent 13 years at Systems Limited's US office as Chief Operating Officer, and has provided valuable contributions in the development of solutions and products that acted as a catalyst to the company's phenomenal growth within the US market.

Mr. Peer has been the Chief Executive Officer and Managing Director of Systems Limited since January 1, 2013. As CEO, he has used his long and successful career in enterprise technology to provide guidance to the entire organization, and is leading the organization into a new era of growth in IT and BPO. His story is a source of inspiration for other Systems employees and other technology professionals across the region, and his keen vision has helped Systems Limited become a major force in global technology services.

Mr. Peer holds a BCS degree from FAST and an MBA degree in Finance & Marketing from Institute of Business Administration.
