

PRIME MINISTER'S OFFICE BOARD OF INVESTMENT (BOI)

CORRIGENDUM

Project Name: Digital Economy Enhancement Project

Assignment Title: Designing and Developing the Pakistan Regulatory Registry (PRR) and Providing Technical Assistance for Phase-wise Mapping, Streamlining and Cataloguing of RLCOs.

Loan/Credit/TF Info.: IDA-75140

Procurement Reference No.: PK-BOI-542104-GO-RFP

Country: Pakistan

1. This is with reference to the Board of Investment (BOI) subject advertisement (Specific Procurement Notice) published in various leading national daily newspapers "Express Tribune" and "Ausaf" on **April 22, 2026** and uploaded over Board of Investment (<https://invest.gov.pk/upcoming-tenders>) website along with the corresponding Request for Proposals Document and subsequent Amendment No. 01 together with the corresponding Corrigendum. The proposal submission date is hereby (further) extended till **July 01, 2026** (11:00 AM Pakistan Standard Time).
2. Moreover, Minutes of the Pre-Bid Meeting including cumulative queries response and Amendment No.1 to the RFP document has been uploaded on the Board of Investment website (<https://invest.gov.pk/upcoming-tenders>).
3. All other terms and conditions of the subject/ earlier published Specific Procurement Notice and corresponding Request for Proposals Document remain unchanged until and unless expressly modified so in writing.

PRIME MINISTER'S OFFICE

BOARD OF INVESTMENT (BOI)

| Reference Clause No. as per the as issued RFP | Initial Requirements/ Compliance Required as per the as issued RFP | Revised Requirements/ Compliance Required as per the Amendment No. 01 |
|---|--|--|
| Section II – Proposal Data Sheet (PDS) D. Submission and Opening of Proposals | | |
| ITP 23.1 Modification | Date: June 11, 2026 Time: 11:00 AM Pakistan Standard Time | Date: July 01, 2026 Time: 11:00 AM Pakistan Standard Time |
| Section II – Proposal Data Sheet (PDS) E. Public Opening of Technical Parts of Proposals | | |
| ITP 26.1 Modification | Date: June 11, 2026 Time: 1130 Hours Pakistan Standard Time | Date: July 01, 2026 Time: 1130 Hours Pakistan Standard Time |
| Section II : | | |
| PDS ITP 32.2 (technical factors table) Addition | | Add after PDS ITP 32.2 (technical factors table) Low-code/no-code capability shall be evaluated within the relevant technical evaluation criteria relating to solution architecture, workflow digitization, interoperability, implementation methodology, scalability, maintainability and sustainability. Proposers shall clearly attach relevant documents which demonstrate how their past platform(s) enable rapid configuration of forms, workflows, approvals, business rules, user roles, integrations, audit trails and end-to-end digital services, while ensuring security, documentation, handover and continuity for Government use. |
| Section VII. Purchaser's Requirements | | |
| Module 4 — Mapping Enablement Module Subsection: 1.2.4.6 Addition | | Note for Proposer Indicative RLCO volume. For planning purposes only, Proposers may assume an indicative national RLCO stock in the order of several thousand records across the six jurisdictions, of which an initial tranche is expected to be mapped during the contract period. This figure is indicative and non-binding. The authoritative volume for each agency is established operationally through the Two-Stage Count (Initial Expected Count at onboarding and Final Certified Count at closure) and is not warranted by the Purchaser. RLCO data entry is the responsibility of Departmental Focal Persons under BOI/AKTU validation; the Supplier prices the platform, assisted-ingestion tooling, mapping enablement, field hand-holding (minimum five resources per active jurisdiction), training, and the TA deliverables scoped to 100 priority economic activities. Proposers shall price the field and TA effort against the fixed jurisdiction, activity, and schedule parameters of this RFP and not against any assumed total record count. The primary onus of identifying, verifying and completing RLCO mapping remain with the concerned public sector entities in accordance with Clause 9 of the Asaan Karobar Act, 2025 |

PRIME MINISTER'S OFFICE

BOARD OF INVESTMENT (BOI)

| <p>2.5 Data Conversion and Migration Subsection 2.5.3</p> <p>Addition</p> | | <p>During Inception the Supplier shall assess and the Purchaser shall jointly agree a data-quality baseline for the source datasets (excel, word etc.) to be ingested. Cleansing and remediation effort within that baseline is included in the Supplier's price. The Supplier remains responsible for the integrity/quality of the data supplied and its own AI-assisted extraction as well as for routing all machine-generated records through the Human Verification Queue prior to validation. However, data quality risk shall rest with the concerned public sector entity / regulatory agency, being the legal owner and custodian of its respective RLCO data. The Consultant to flag apparent gaps or inconsistencies and shall not be liable for omissions, inaccuracies, outdated legal references or incomplete information, supplied and approved by public bodies. Final verification, certification and ownership of RLCO data shall remain with the respective public sector entity.</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

| <p>1.2.11 Business Function Requirements — Technical Assistance Workstream</p> <p>Subsection 1.2.11.3 (Stakeholder Engagement and Capacity Building)</p> <p>Addition</p> | | <p>For pricing and evaluation purposes, the Supplier shall price a fixed minimum of six (6) facilitated stakeholder workshops (mapping and validation workshops during active wave) at each jurisdiction (Federal, ICT, Punjab, Sindh, Khyber Pakhtunkhwa and Baluchistan), to be delivered across the engagement lifecycle up to Week 95.</p> <p>This fixed count is a minimum priced basis only and shall not restrict the stakeholder engagement approach proposed by a Proposer in its Technical Proposal. Proposers may propose a richer or more extensive engagement plan, which shall be assessed under the relevant rated criterion for Stakeholder Workshop Strategy. Where a Proposer commits to additional sessions in its Technical Proposal, such additional sessions shall be deemed included at no additional cost, unless separately itemized and accepted by the Purchaser.</p> <p>For this purpose, a facilitated stakeholder session / seminar shall mean one full working day, held at the relevant jurisdiction capital, or at Islamabad for Federal and national-level sessions, for up to fifty (50) participants.</p> <p>The per-session rate shall include the Supplier's facilitation and facilitator time, preparation of agenda and session materials, attendance register, and submission of session record / minutes as a deliverable. The per-session rate shall also include the Supplier's own travel, subsistence and incidentals in accordance with applicable RFP provisions. Travel and subsistence of Government participants shall be borne by Government.</p> <p>Note: The Supplier shall quote a single per-session rate (minimum 6 per jurisdiction; quote per-session rate) in the Price Schedules (Section IV, Schedule 3.5-T, Row 5.4).</p> | | | |
| <p>1.3.5 Deployment Architecture and Environment Strategy</p> <p>Addition</p> | | <p>Add the following as a new paragraph at the end of subsection :1.3.5.1:</p> <p>The Purchaser shall provision the Government of Pakistan hosting environment (compute, storage, network, and access credentials to the agreed specification) and confirm Supplier access by the date recorded in the Agreed Project Plan, aligned to the MVP and platform milestones. Where Purchaser delay in providing a ready environment prevents the Supplier from proceeding, the Supplier shall be entitled to an extension of the affected milestone dates.</p> | | | |
| <p>Section VII, sub-section 1.3.6 sub-section 1.3.6.3 (Integration Modes)</p> <p>Addition</p> | | <p>Add the following as new sub-clause 1.3.6.4</p> <p>1.3.6.4 External Integration Dependency and Limitation of Liability: The use of pre-existing proprietary non-AI software platforms, including BPM/workflow engines, reusable low-code/no-code platforms, integration components and reusable code bases, shall be permissible, provided these are fully declared in the Technical Proposal and do not affect Government ownership of PRR-specific deliverables. The Government shall retain ownership of all PRR-specific outputs, data, configurations, workflows, templates, integrations, customizations and implementation deliverables. Where such pre-existing proprietary components are used, the Government shall receive a perpetual license for PRR-related use, operation, maintenance and continuity, supported by adequate documentation, handover material and, where applicable, escrow or equivalent continuity safeguards.</p> | | | |
